## APPLICATIONS

CONFERENCE ROOM

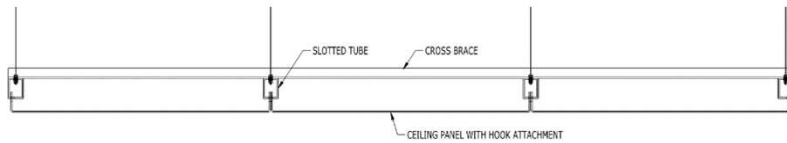

RECEPTIONS

OFFICE

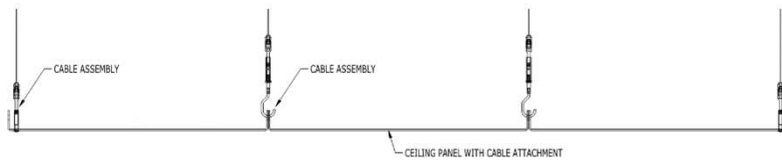

LOBBIES

Laser-cut decorative ceiling systems offer both functionality and ornamentation. Customizable with a wide range of designs, materials, color and functionality, laser-cut ceiling systems are a modern-day architectural decor solution.

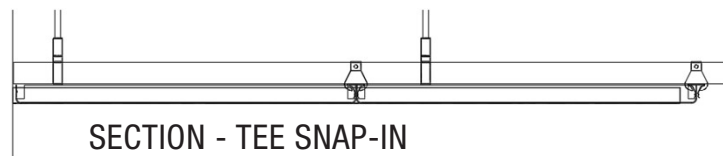

These systems can be finished in a variety of colors and styles to match the architecture of the surroundings. High-quality materials, including stainless steel, aluminum, and steel, are used in the fabrication of panelled ceiling systems.
