

SLAT™ PICKET SYSTEM

PATENT PENDING

DESIGN + ENGINEER + FABRICATE + INSTALL

The SLAT Railing System is an array type aluminum railing that features vertical slats installed at varying rotational angles, creating a visual play of light and shadow. This design consist of a series of aluminum slats arranged in a linear fashion, offering a sleek and modern look.

By fabricating the slats at different angles, it is possible to create a wide range of visual effects, from subtle and

understated to bold and eye-catching. Depending on the array you choose the based on your project application, you can create an element of privacy for onlookers while still having visibility from inside outdurability and resistance to the elements.

VIVA SLAT Systems unique design adds a modern and visually striking element to any building or outdoor space.
