WALL RAIL™ RAILING SYSTEM

Our Wall Rail is an additional option available with any of the railing systems for use on stairs or ramps. The standard VIVA Wall Rail uses ingeniously designed conical brackets that can be mounted on drywall, CMU, concrete, tile, stone or steel. In addition, our use of concealed fasteners provide stability without unsightly flange or covers.

Other mounting options available.

#6 Satin

Powder Coat

Powder coating is an environmentally-friendly option because it doesn't rely on solvents or chemical carriers. Instead, an electrostatic charge holds the paint to the steel, thus eliminating VOC emissions which will help in regards to LEED requirements. In addition, it meets AAMA specifications. Powder coating is durable and scratch resistant so it weathers and retains its original hue better than conventional liquid coatings.*
